Programming Languages Javascript, HTML, CSS, SCSS

Python

Libraries & Frameworks

Reactjs, Vitejs, NodeJS, Tailwind CSS, Bootstrap, Nextjs, React Native

Tools & Platforms

Git, GitHub, Netlify, Vercel, Heroku, Render, Firebase, Figma, Adobe Illustrator

EDUCATION

Physics (2018 – 2023)

Bachelor of Science (BSc)

Federal University of Agriculture Abeokuta Ogun state, Nigeria.

Selected Projects

Codesystic

A tech solution provider that specializes on web development, mobile app development & web3 development

+ HTML, CSS, REACT, BOOTSTRAP

<https://codesystic.dev>

Mnemonic Generator

A Mnemonic Generator application using React. The app generates a random mnemonic phrase using the BIP39 standard and allows users to copy it to the clipboard with instant feedback through toast notifications.

+ React, BIP39, React-Toastify, CSS

<https://mnemonic-generator.netlify.app/>

Strart

An ecommerce website that specializes in the sales of hand crafted shoes and sandals./

+ Nextjs, Tailwind CSS

<https://github.com/Gizzhy/strart>

Mnemonic Generator using PYTHON

Developed a Mnemonic Generator web application using Flask. The app generates a mnemonic phrase on the server side using the Mnemonic library and displays it on the front end. Users can generate a new mnemonic with a simple button click.

+ Flask, Mnemonic, HTML, CSS, JavaScript.

https://github.com/Gizzhy/mnemocomic_generator

Gaming Webapp

A simple friendship test webapp where users can select their choices and send to their peers to guess their respective choices

+ HTML, CSS, REACT

Languages

English, Yoruba, German.

SUMMARY

Hard-working individual with proficiency in HTML, CSS, Bootstrap, JavaScript, ReactJS, Python, as well as ability to communicate and work in a team effectively. I seek to apply for the position for Frontend developer to further organizational growth through my skills and dexterity
